The technical drawing illustrates a 3D-printed metal component, likely a filter or manifold, with the following dimensions and features:

- Top View (Left):** Shows a circular cross-section with a diameter of 78.2. The central hole has a diameter of 70.6. There are four mounting holes with a diameter of 11, spaced 78 apart (78 x 60). The outer edge has a chamfer of 10.4.
- Bottom View (Right):** Shows a similar circular cross-section with a diameter of 78.2. The central hole has a diameter of 70.6. There are four mounting holes with a diameter of 11, spaced 78 apart (78 x 60). The outer edge has a chamfer of 10.4.
- Side View (Left):** Shows the side profile of the part, which is a cylinder with a diameter of 78.2 and a height of 92. The top and bottom flanges have a thickness of 17. The central hole has a diameter of 70.6. The mounting holes have a diameter of 11. The outer edge has a chamfer of 10.4.
- Side View (Right):** Shows the side profile of the part, which is a cylinder with a diameter of 78.2 and a height of 92. The top and bottom flanges have a thickness of 17. The central hole has a diameter of 70.6. The mounting holes have a diameter of 11. The outer edge has a chamfer of 10.4.
