Technical drawing of a 3D-printed metal part, showing two isometric views and two cross-sectional views with dimensions.

The top view (left) shows a circular cross-section with a diameter of 78.2 mm. It features four mounting holes with a diameter of 11 mm, spaced 78 mm apart (center-to-center). The central hole has a diameter of 70.6 mm. The bottom view (right) shows a similar cross-section with a diameter of 78.2 mm and four mounting holes with a diameter of 10.4 mm, spaced 78 mm apart (center-to-center). The central hole has a diameter of 70.6 mm.

The side view (left) shows the part's profile, which is cylindrical with a diameter of 78.2 mm. It features a central hole with a diameter of 70.6 mm and four mounting holes with a diameter of 11 mm, spaced 78 mm apart (center-to-center). The bottom view (right) shows the part's profile, which is cylindrical with a diameter of 78.2 mm. It features a central hole with a diameter of 70.6 mm and four mounting holes with a diameter of 10.4 mm, spaced 78 mm apart (center-to-center). The central hole has a diameter of 70.6 mm.

The bottom view (left) shows a diamond-shaped cross-section with a width of 92 mm. It features four mounting holes with a diameter of 12.5 mm (M12x1,25), spaced 51.5 mm apart (center-to-center). The central hole has a diameter of 70.6 mm.

The bottom view (right) shows a diamond-shaped cross-section with a width of 44 mm. It features four mounting holes with a diameter of 10 mm (M10x1,25), spaced 17 mm apart (center-to-center). The central hole has a diameter of 70.6 mm.
